Increase of number of packages in selected tasks

Covered tasks

- Molecular biology, structural biology and bioinformatics
  - Development of applications
  - Next Generation Sequencing
  - Phylogeny
  - Cloud computing
- Drug database
- Epidemiology
- Medical imaging / DICOM viewers
- Medical physics
- Medical practice
- Psychological research *Neuro Debian*
- Statistics packages which are specifically designed to be used in medical research or bioinformatics
- Small tools for several purposes in health care
- Typesetting and publishing

Covered tasks

- **Molecular biology, structural biology and bioinformatics**
  - Development of applications
  - Next Generation Sequencing
  - Phylogeny
  - Cloud computing
- Drug database
- Epidemiology
- Medical imaging / DICOM viewers
- Medical physics
- Medical practice
- Psychological research *Neuro Debian*
- Statistics packages which are specifically designed to be used in medical research or bioinformatics
- Small tools for several purposes in health care
- Typesetting and publishing

Covered tasks

- **Molecular biology, structural biology and bioinformatics**
  - Development of applications
  - Next Generation Sequencing
  - Phylogeny
  - Cloud computing

There will be no problems! ☺

- We are fighting through the dependency jungle of Java applications
- Getting large applications like *VistA* packaged
- Working out non-free issues
- Install / Live CD ?
- Always feel free to work on our *TODO list in Wiki*
- In case you just want to fix some bugs go *here*
