

Debian
Science and
Education
packaging
workshop

Andreas Tille

Short
Introduction

Lets start with
your own
example

Debian Science and Education packaging workshop

Package your very own scientific or educational
application

Andreas Tille

Debian

LSM, Montpellier, 9. July 2014

Required knowledge

Debian
Science and
Education
packaging
workshop

Andreas Tille

Short
Introduction

Lets start with
your own
example

- **makefile**

- diff / patch (quilt)
- SVN or Git
- debhelper
- lintian

Required knowledge

Needed packages

Debian
Science and
Education
packaging
workshop

Andreas Tille

Short
Introduction

Lets start with
your own
example

dpkg-dev needed tools

make debian/rules is a *Makefile*

dh-make create a template

debhelper just use it

devscripts very useful

fakeroot pretend to be root

gnupg sign package

lintian policy checker

pbuilder build package in chroot

build-essential metapackage

Needed packages

Debian
Science and
Education
packaging
workshop

Lets start with
your own
example

?

How to start?

Debian
Science and
Education
packaging
workshop

[Andreas Tille](#)

Short
Introduction

Lets start with
your own
example

dh_make

or

```
svn export svn://anonscm.debian.org/ \
svn/debian-med/trunk/package_template debian
```

... which needs to be adapted from Debian Med but might be helpful anyway
