Neovim Plugins			
This table tracks the effort to package the Neovim plugins I currently use. The goal is to set up Neovim as a complete IDE using only Debian packages. This serves as a personal TODO list.			
Plugin	Package Name	Unstable	Experimental
goolord/alpha-nvim			
windwp/nvim-autopairs			
romgrk/barbar.nvim			
folke/tokyonight.nvim
