Subject: tracker.debian.org: Signed by field is missing when sponsoring as DD non-uploading

Date: Tue, 19 Aug 2025 22:56:57 -0300

[[Message part 1](#) (text/plain, inline)]

Package: [tracker.debian.org](#)

Severity: minor

Dear Maintainer,

This upload was sponsored by me:

<https://tracker.debian.org/news/1658019/accepted-typer-0160-1-source-into-unstable/>

However, tracker does not show the Signed-By field. This was my first sponsor as a non-uploading DD. The other ones I did as a DM all showed this field correctly.

```

OK. I thus added debian-nonupload.gpg to the list of keyrings to use to identify signatures on .changes.

That should fix it for your next upload Cypriano.

Have a nice day!
