The Team

- Cord
- Rince
- (dondelcaro)
- (sledge)

Problems

"The others"

- DMARC / DKIM do make our life harder
- the big providers are not really list friendly (google! I talk about you)

Problems

Spam prevention

- Maintaining a ruleset needs a lot of manpower (thanks Steve!)
- the whole (tool|rule)set is probably not uptodate
- "eating" mail is not userfriendly
- the learning process needs a more performant overhauling

Problems

sigcheck

- has problems with several clients (esp. thunderbird)

Problems

manpower

- we are not enough people to implement new features

Problems

BTS

- we really need a triaging of bugs and a cleanup of the bts

Plans

- Do an open listmaster sprint
- Participate in GSOC

Everyone is able to help

- Improve spamrules
- fix bugs
- fix sigcheck
- help us to improve DKIM/DMARC/ARC
- Join the team
