```

#2: Ubuntu è più
difficile di Windows

#3: Windows ha un miglior supporto per l'hardware

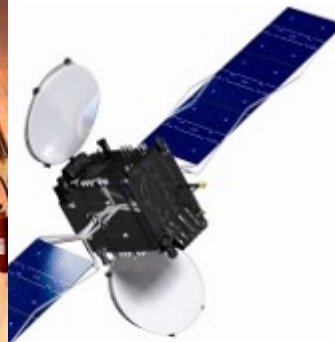

Dov'è Linux?

Dov'è Linux?

A close-up photograph of a young child with curly hair, looking intently at a laptop screen. The child's face is the central focus, with their eyes wide and looking directly at the camera. The laptop screen is in the foreground, partially obscuring the child's chest. The background is blurred, showing a patterned surface and a person's arm. A black text box is overlaid on the bottom left of the image.

#4: Ubuntu è
solo per newbie

#5: Ubuntu è
solo per nerd

#6: Ubuntu non crasha mai!

#7: Gli aggiornamenti di Ubuntu
possono creare problemi

#8: Ubuntu ha poche applicazioni

#9: Installare applicazioni
su Ubuntu è difficile

#10: Solo un programmatore può contribuire ad Ubuntu

```
if ($data['type'] == "dropdown") {
    $count = $data['number'];
    $call = $data['contents'];
    echo "<select name=\"\", $data['name']\n";
    for($i = 0; $i < $count; $i++) {
        $value = $data[$i];
        echo "<option value=\"$value\"";
        if ($data['default'] == $value) {
            echo " selected";
        }
        echo "> $call[$i]\n";
    }
    $count = $data['number'];
    $call = $data['contents'];
    echo "<select name=\"\", $data['name']\n";
    foreach ($call as $c) {
        echo "\t\t<option value=\"\"";
        if($value == $data['default']) {
            echo " selected";
        }
        echo ">";
    }
}
```

**Bonus Myth: Debian
è migliore di Ubuntu**

Generalizzazione:
\$QUESTO è meglio di \$QUELLO

Degenerazione:
\$MIO è meglio di \$TUO!

Degenerazione #2:
\$MIO spakka, \$TUO fa schifo!

Software Libero:
Il piacere di poter scegliere
